

New Construction

Temporary School Facilities

Temporary portable units and other emergency school housing are inadequate for long-term public school purposes. Therefore, it is the Board's aim to have sufficient adequate long-term facilities to meet the needs of the school enrollment and the school program.

If circumstances require immediate space not available in public school buildings, short-term rentals or other movable structures will be used only as a temporary measure. Any such facility must conform to all appropriate state and local building and land use codes, health and fire laws and environmental standards.
